The diagram illustrates a database table structure for distributing facsimiles. The table has three columns: 'Registered Address' (222), 'Recipient Contact Information' (224), and 'Other Data (Recipient Name)' (226). The table contains eight rows of data. Each row is preceded by a vertical line labeled '210' and an arrow pointing to the first column. A curved arrow labeled '200' points from the top right towards the table. Three lines labeled '220' point to the bottom of each column, indicating they can be repeated.
